Introduction

The IPSF Artistic system is broken down into four parts, namely Choreography, Degree of difficulty, Execution and Presentation. Performers will be judged in all four sections. The final score is a combination of all 4 parts and the performer with the highest score will be the winner. The minimum overall score a performer can be awarded is zero and the highest score is 100. Up to 40 points are awarded for difficulty and execution, with up to 60 points awarded for performance. There are no compulsory elements, and higher points are awarded for performance skills over technical skills.

Please note all IPSF judges are highly trained in the IPSF Artistic Scoring System; however, be advised that due to the nature of an artistic performance, subjectivity cannot be totally eliminated. The judges' scores are final.

IPSF COMPETITIONS NO-SHOW POLICY

Purpose

This policy outlines the International Pole Sports Federation's (IPSF) approach to performers who apply for competitions both nationally and internationally and don't attend the events.

Context

This policy has been introduced as a result of the frequency of occasions where competitors do not attend and perform at competitions they have entered without informing the competition organisers. This policy will help to eliminate the following problems:

- Preventing other performers from participating in competitions
- Causing delays to the organisers
- Disappointing sporting fans and spectators
- Disrupting competition schedules
- Creating difficulties with sponsors

Expectations for Informing Competition Organisers

Performers who are unable to attend competitions they have entered need to adhere to at least **one** of the following expectations according to the reason for non-attendance and how long before the competition performers wish to cancel their attendance:

1. Performers are expected to inform national and international competition organisers that they will not be attending. The time limit for this is **three weeks** before the date of competition. It is the performer's responsibility to know the cut-off date.
2. Performers who have to cancel their attendance after the cut-off date **must** inform the competition organisers as soon as possible (it is acceptable for someone to do this on their behalf). A medical certificate (with a copy translated into English if the original certificate isn't in English) must be submitted to the competition organiser.
3. Performers who do not have a medical reason for not attending at short notice will need to submit their reasons to the competition organiser to be assessed by the IPSF Executive Committee to decide if the reason is acceptable. If not, the sanctions below will be registered to the performer.

IPSF Notification Procedures

1. Performers have up to **seven days** after the competition date to submit the appropriate as stated above.
2. If a form is not submitted after **seven days**, the IPSF will write to the performer explaining they are now being registered as a **no-show**.
3. If there is no response the IPSF will register the performer as a no-show with the current sanctions (detailed below).
4. To register an appeal, the performer must do so within **seven days** from receipt of being registered as a no show. An appeal will be assessed by the IPSF Executive Committee.

Sanctions

Performers who do not satisfy the criteria for non-attendance at an IPSF national or international competition will be registered as a no-show performer and will be banned from all regional, national and international competitions for a period of one year from the date of the competition. All details (names and competition) will be published on IPSF national and international websites.

ADDENDUM 1

Prohibited movements and penalties

- All types of lifts and balances with extended arms and where the lifting partner is in an upright standing position are prohibited. All lifts where the partner is lifted and held above shoulder level are prohibited.

- Throwing a partner into the air and catching him or her with no contact with the pole is prohibited.

LIMITED ELEMENTS/MOVEMENTS

The following elements and movements are limited, meaning that they may not be performed more than once per routine, and are additional to prohibited movements and elements listed above. This means that performers may perform each movement no more than once per routine. This limitation is subject to an agreement with FIG regarding coexistence of the two bodies, and is directly from the FIG Aerobic Gymnastics Code of Points (along with stipulations regarding other gymnastics codes already listed in this document). Please note the penalties that will apply per infringement.

Additional to the below elements, the following are also limited to one of each kind of movement per routine only:

- Pivots (as in rhythmic gymnastics, specifically horizontal, attitude and needle pivots)
- Walkovers (forwards and backwards, including starting on the floor)
- Capoeira movements
- Cartwheels of any kind
- Round-offs

As a general rule, no elements/movements with a turn of more than 720° are allowed.

If in doubt, please visit the IPSF website for links to the videos of these elements (or use the links below).
